This worksheet is used to capture examples of tools used by government entities involved in improvement of procurement practices.

Steps	Tools/Resources*	Dependencies	Challenges	History
 Keep the Purpose in Mind	<ul style="list-style-type: none"> <li>• Use of strategic planning: SWOT analysis</li> <li>• Mission, vision, principles, values: ACORN test</li> <li>• Continuum of Team Goals</li> <li>• Staff summary sheets</li> <li>• Cost-benefit analysis</li> <li>• Ethical considerations</li> <li>• Pareto diagrams</li> </ul>	Align with the larger organizational strategy, clarify the team's purpose, and define the constraints on decision making		
 Find Opportunities	<b>Improvement model used, if any, e.g. Lean Six Sigma or Kaizen?</b> <ul style="list-style-type: none"> <li>• Appreciative Inquiry</li> <li>• Prior organizational strategic planning</li> <li>• Mission/vision/principles?</li> <li>• SWOT?</li> <li>• Requirements matrix/voice of customer</li> <li>• Matrix diagrams/House of quality</li> <li>• “As is” - “should be” gap?</li> </ul>	Involve customers and stakeholders in defining the gap between the “what is” and the “should be” and the path to change.		
 Learn from the stars	<ul style="list-style-type: none"> <li>• Finding, assessing, using best practices</li> <li>• Benchmarking analysis tools</li> <li>• Lessons learned: limitations of benchmarking</li> </ul>	Learn from others who may have solved the same problem, developed best practices, or used relevant benchmarks. Keep an eye on system performance.		
 Promote the Team	<ul style="list-style-type: none"> <li>• Conflict management models/tools</li> <li>• Team training plan/resource library</li> <li>• Brainstorming, normative group technique</li> <li>• Affinity diagrams</li> <li>• Mind, brain, or idea mapping</li> <li>• Prioritization matrix/multi-voting</li> <li>• Criteria filtering</li> <li>• Benefits and barriers/force field analysis (change)</li> </ul>	Take time to meld a small team with technical, interpersonal, and problem-solving skills that shares the work and embraces mutual accountability, constructive conflict, decisiveness and commitment to results: Have the right people on the team: the voice of the customers; Create a compelling purpose; Create just enough – not too much – structure; Design meetings that engage the members: use questions; encourage conflict; Model the way to team norms: authenticity; everyone does real work; we don't take calls when we're meeting; we go where the facts lead us; what we say stays confidential; if we commit, we deliver; we succeed or fail as a team Relentlessly pursue results; Foster a supportive context: reward and acknowledge often; Integrate more senior leadership effectively; When stuck, find a simpler problem to solve together, like rewriting the purpose; Do the same in virtual teams; it's just harder!		
 Plan, Communicate, Follow-up	<ul style="list-style-type: none"> <li>• Action oriented meeting agendas/minutes</li> <li>• Project charter/plan</li> <li>• Communications plan</li> <li>• GANTT chart, PERT chart, Arrow diagrams</li> <li>• Story boards</li> <li>• Progress reports</li> <li>• Linear Responsibility charts</li> <li>• Project closure tools</li> </ul>	Plan, schedule, and control. Develop SMART objectives, set priorities, commit to deadlines, create and execute a communications plan, and adjust plans where necessary.		

\*These lists are intended to help jog memories about resources/tools that may have been used in an improvement project.

 <p>First How? Then Why? Decide</p>	<ul style="list-style-type: none"> <li>• Process diagrams/maps or flowcharts</li> <li>• Deployment flowchart/"swim lanes"</li> <li>• Fishbone or Ishikawa diagrams</li> <li>• Relations diagrams/Root cause analysis</li> <li>• Is-Is Not diagram/Why-Why diagram/5 Why's</li> <li>• Lean 5S's/Work flow/spaghetti diagrams</li> <li>• Value added analysis/Value maps</li> <li>• SIPOC</li> <li>• Decision matrix/decision-making models</li> </ul>	<p>Balance expansion of ideas with focusing and analytical tools to find root causes at the heart of problems, using pilot experiments to test solutions and support needed change.</p>
 <p>Use Meaningful Measures of Merit</p>	<ul style="list-style-type: none"> <li>• Balanced Score Card</li> <li>• Use of data to create change imperative</li> <li>• Surveys and survey analysis</li> <li>• Excel conditional formation/statistical analysis</li> <li>• Histograms/scatter charts/pareto diagrams</li> </ul>	<p>Find and use meaningful measures of merit that reduce uncertainty in decision making using balanced financial, process, and outcome measures; develop and continuously monitor controls to achieve reasonable assurance of desired performance.</p>
 <p>Embrace Change! (manage risk and resistance)</p>	<ul style="list-style-type: none"> <li>• Contingency diagrams</li> <li>• Mistake proofing</li> <li>• Analysis of magnitude/likelihood</li> <li>• Avoidance, accepting, reducing, sharing?</li> <li>• Risk Management plan</li> </ul>	<p>Plan to meet challenges from change, assess the likelihood and impact of other risk to the project, and use risk avoidance, transfer, and acceptance. John Kotter's eight-step model: Create urgency, form a powerful coalition, create a vision for change, communicate the vision, remove obstacles, create short-term wins, build on the change, and anchor the change in the culture.</p>
 <p>Keep Learning</p>	<ul style="list-style-type: none"> <li>• Checklists</li> <li>• After action reports</li> <li>• OJT and mentoring</li> <li>• Standardization</li> <li>• Policies and procedures manuals</li> </ul>	<p>Build structures for informal learning: simplify, surprise, make it concrete and emotional to satisfy the WIIFM, promote networked learning, and sustain improvement.</p>
 <p>Lead Laterally</p>	<p>Were there examples of:</p> <ul style="list-style-type: none"> <li>• Tolerance for/learning from failure</li> <li>• Counterproductive "launches" of initiatives</li> <li>• Metric madness</li> <li>• Running interference with senior leadership</li> <li>• Challenges from matrix team organization</li> <li>• Effective responses to plateaus in momentum</li> <li>• Use of "celebrations" recognition</li> <li>• Sustaining improvement</li> </ul>	<ul style="list-style-type: none"> <li>• Use appreciative inquiry to find opportunities.</li> <li>• Take time to form, promote creativity and resist judging too early</li> <li>• Contribute to management of complex situations.</li> <li>• Don't be afraid to tap the altruistic motivations in the team.</li> <li>• Model the way in hosting and leading meetings</li> <li>• Be on the lookout for situations requiring "safety": initially be tentative with opinions</li> <li>• Offer to do real work, like researching best practices</li> <li>• Help the team spot system impacts, unintended consequences</li> <li>• Promote informal learning with SUCCES</li> <li>• Question whether there is excessive risk aversion</li> <li>• Look at change as a strategic challenge</li> <li>• If no one else will, just start with a question</li> <li>• Be an interface between members of the organization.</li> <li>• Help clarify the purpose of the group – continuously</li> <li>• Encourage discussion about the needs of the group</li> <li>• Contribute your "deep domain knowledge"</li> </ul>
